

Guardian Drum Liners

Guardian drum liners are an efficient and economical solution to the headache and expense of cleaning and/or disposing of used drums.

Guardian liners are manufactured using engineered polyethylene film structures to provide durability, consistency and performance. Our liners are manufactured in an ultra-clean environment to insure that your product stays pure and contamination free.

Guardian Rigid Round Bottom Drum Liner ▶

The Rigid Round Bottom 55 gallon Drum Liner is strong enough to stand on its own. This self supporting, heavy gauge drum insert is ideal for in-drum mixing or pumping applications.

◀ Guardian Flexible Round Bottom Drum Liners

The Flexible Round Bottom Drum Liner is "form-fitted" to the interior of the drum to insure a complete and consistent fill and to eliminate residual waste after dispense.

Guardian Liquid-Tight Drum Liners ▶

The Guardian Liquid-Tight Drum Liners provide extra security for your liquid products during transport and storage. The Liquid-Tight liners are manufactured using two plies of an engineered 4mil low density polyethylene film structure to provide durability, consistency and performance.

◀ Guardian Lay-Flat Drum Liners (Bags-on-a-Roll)

Guardian Bag-on-a-Roll drum liners are economical and heavy duty lay-flat drum or can liners. These liners come on a roll and are separated by perforations. Lay-Flat liners are available in 2mil, 4mil and 6mil in a variety of sizes for various drum applications.
