SCAPE® CO/CBRN³⁰

The only NIOSH approved Air-Purifying Escape Respirator for CO (Carbon Monoxide) and CBRN

When the safety of your coworkers depends upon your knowledge and expertise, you want a solid tradition of proven protection on your side.

The **SCape® CO/CBRN³⁰** from ILC Dover is the only escape mask certified to provide protection from carbon monoxide, chemical, biological, radiological and nuclear contaminants.

In the event of a fire or other emergency, there's no time for confusion. Simply remove the **SCape®** mask from its protective container and slip the self-sealing neck dam over the head. The positive-flow ventilation system automatically activates and its clear hood allows the user to perform a wide range of critical tasks, such as using a cell phone or other communication device. **SCape®** does all of the work and allows you to take control of the situation.

Trusted for protecting thousands on the battlefield and astronauts in space, ILC Dover continues to lead the way in personal protection for hostile environments.

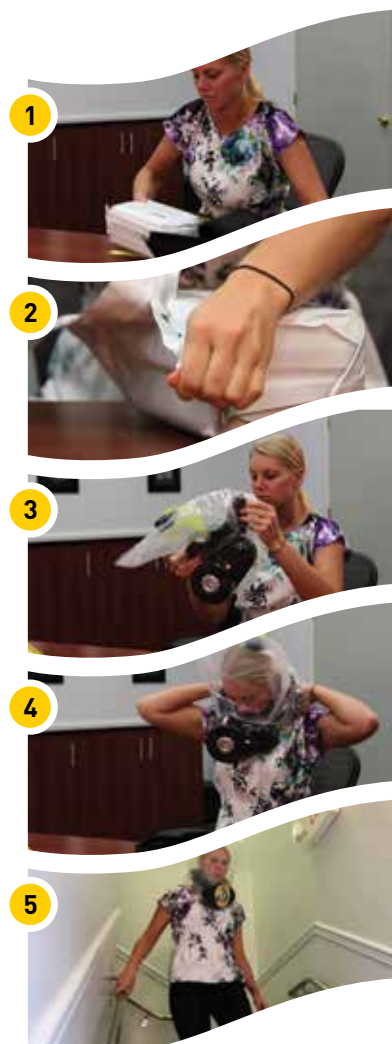

NIOSH - verified performance against carbon monoxide, plus:

SCape® CO/CBRN³⁰ System Level Agent (SMARTMAN)

Test Agent	Challenge Concentration	Service Time
Mustard (HD) Vapor	50 mg/m ³	>30
Mustard (HD) Liquid	0.43-0.86 ml	>30
Sarin (GB) Vapor	210 mg/m ³	>30

SCape® CO/CBRN³⁰ Chemical Test Agents (Filter Gas Life)

Test Agent	Challenge Concentration (ppm) (64 lpm at both 25% & 80% RH)	Allowable Breakthrough (ppm)	Service Time (min)
Ammonia (NH ₃)	1250	25	>30
Cyanogen Chloride (CK)	150	2	>30
Cyclohexane (C ₆ H ₁₂)	1300	10	>30
Formaldehyde (CH ₂ O)	250	10	>30
Hydrogen Cyanide (HCN)	470	10	>30
Hydrogen Sulfide (H ₂ S)	500	30	>30
Nitrogen Dioxide (NO ₂)	100	1	>30
Phosgene (COCl ₂)	125	1.25	>30
Phosphine (PH ₃)	150	0.5	>30
Sulfur Dioxide (SO ₂)	750	5	>30

**INTEGRAL
BLOWER WITH

WHY TRUST SCAPE® CO/CBRN³⁰?

The proof is in our history. Since 1947, ILC Dover has been active in the design and development of products for both government and industry.

We **ENGINEER** masks to **PROTECT HEROES** from chemical and biological Warfare

We have constructed over 3,000,000 masks

Our lighter-than-air structures are used in a variety of industries from *communications & advertising* to *military protection*.

Touching Lives

ILC DOVER
creating what's next»

Around the World

Safe Pharmaceutical Processing

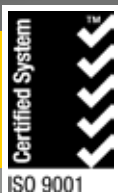

We are developing **MASSIVE INFLATABLES** to **SEAL OFF A SUBWAY** in the event of a disaster or attack

We were there when man first walked on the moon

Our Products Perform In The **MOST DEMANDING ENVIRONMENTS**

SPECIALITIES Personal Protection Equipment (PPE)
Lighter-Than-Air Structures • Engineered Inflatables
NASA Space Suits • Pharmaceutical Powder Containment
